PROJECTS

GameFaces (Ruby, Rails, JavaScript, React, Flux)

[live](#) | [github](#)

Social networking site for video game characters, based on Facebook.

- Leverages React/Flux to dynamically load content without page refreshes.
- Ranks friends in real-time via AJAX requests triggered by user actions.

SnakeS (JavaScript, jQuery)

[live](#) | [github](#)

Variation on the classic Snake game.

- Directly accesses and toggles the classes of over 2,500 DOM elements using jQuery to efficiently render complex game boards.
- Builds all game elements as children of one root for portability.

ActiveRecord-Lite (Ruby, SQL)

[github](#)

Object Relational Mapping inspired by ActiveRecord.

- Constructs SQL queries via metaprogramming using ORM-patterns.
 - Incorporates direct metaprogramming of SQL operators for ease of use.
